Summary

I am a manufacturing operations leader with four years experience running an OEM production facility that produces, deploys and maintains thousands of utility devices nationwide. I am an industrial designer by training with hands-on experience fabricating and installing a variety of products in different industries. I also have a passion for building software solutions and AI systems.

WORK EXPERIENCE

Utility Systems Science + Software | San Diego, CA

Jan 2022 - present

Head of Manufacturing / Manufacturing Engineer

In my current position I am responsible for all operations related to production of products for the company

- Day to day management of production facility
- Responsible for hiring, onboarding and training of all production technicians and local installers.
- Head hardware solutions designer.
- I built and maintained the company's AI-equipment operating system which solves multiple pain points and improves company efficiency in multiple departments including inventory receiving, product deployment, life cycle tracking and maintenance.

Independent Design and Fabrication | New York, NY

2015 - 2021

Designer and Fabricator

Founded a custom fabrication practice producing industrial-style lighting fixtures and products for commercial and residential clients. I designed, built, marketed, sold and installed the work. Which included large complex wall pieces, chandeliers, table lamps, wall sconces and other products.

- Executed the design and installation for various high-end bars and restaurants in Manhattan.
- Designed and developed the product strategy for the online shop, Instagram, and Etsy accounts.
- Attend in-person craft shows and markets across New York City to drive sales.
- Completed a full off-grid conversion of a cargo trailer to a tiny home which I lived in for 6 months, and drove it from New York to San Diego with my dog and now wife.

Poliform Italian Designs | New York, NY

2020 - 2021

Install Specialist

- Trained specialist in the installation of prefabricated kitchens and custom closets designed by Poliform Italy.
- Surveyed sites before install date to ensure dimensions and design drawing were accurate.
- Executed floor-to-ceiling Poliform installations for Temili Design Corp. clients across New York City.

Temili Design Corp. | New York, NY

2020 - 2021

Carpenters Assistant

- Assisted in the construction of various custom furnishings for the lead designer.
- Responsibilities included general carpentry, heavy lifting, cabinet construction, and veneering.
- Hands-on experience with woodworking techniques.

NOTB Construction Ltd | New York, NY

2019 - 2020

General Laborer

- Executed custom indoor and outdoor builds, including concrete work, landscaping and general site labor. Manage day-to-day responsibilities for executing custom indoor and outdoor builds.
- Led daily quality assurance for the lead Project Manager.

EDUCATION AND CERTIFICATIONS

Dublin Institute of Technology | Dublin, Ireland
